(l) Develop and launch, on a priority basis, in cooperation with competent United Nations bodies and specialized agencies, a coordinated public information programme on the International Conference on Population and Development.

C. Additional requirements at full cost

4. The requests listed in paragraphs 2.A and 2.J above reflect the approved programme of work outlined under section 31 of the 1992-1993 programme budget as well as the programme of work included in section 24 of the proposed programme budget for the biennium 1994-1995. No additional resources would be required for their implementation.

5. With regard to the requests contained in paragraphs 2.B and 2.K above, the Department of Public Information would continue its efforts to ensure timely production and editorial independence of its mandated publications and to enhance the efficiency of its regional radio units. No additional appropriations would be required in this context.

6. As regards the request contained in paragraph 2.C above, the Department of Public Information will examine, together with any interested United Nations agencies and organizations in the context of the Joint United Nations Information Committee (JUNIC), any practical administrative and funding proposals that may permit the revival of Development Forum on an assured and continuing basis. The results of such review would be reported to the Committee on Information. No additional appropriation would be required for the production of this report.

7. It is not anticipated that any additional appropriations would be required for the production of the reports, studies and assessments called for or invited in paragraphs 2.D, 2.E, 2.F, 2.H and 2.M above, as they relate to the regular programme of activities of the Programme Evaluation and Communications Research Unit of the Department of Public Information.

8. With regard to the request contained in paragraph 2.G above, the Secretary-General has submitted a report to the General Assembly on the United Nations interim offices (A/48/146/Add.1), to be considered by the Second Committee during the current session.

9. With regard to the request contained in paragraph 2.L above, consistent with the information provided in paragraph 8 of the Secretary-General's statement of programme budget implications (A/C.5/47/57), phased installation of furniture and equipment in the conference rooms at Headquarters to ensure parity in the coverage of English and French from existing resources has commenced. As of late 1992, facilities for French coverage were installed in conference rooms 1 and 3. For 1993, the Department of Public Information is working with the Office of General Services on arrangements to install similar facilities in conference rooms 2, 4 and the Economic and Social Council and Trusteeship Council chambers. For the 1994-1995 biennium, the Department of Public

Information and the Office of General Services anticipate the completion of installation of facilities for French coverage in all the remaining conference rooms.

10. The request contained in paragraph 2.I above concerns the establishment of a United Nations information component in Warsaw. In this connection, it is noted that the Polish Government has agreed in principle to provide rent-free premises as well as a financial contribution of 200 million Polish zlotys (equivalent to approximately US$ 12,700 at current rates) to partially offset initial operating resource requirements for the information component. However, discussions between representatives of the Polish Government and the Secretariat are continuing on a number of unresolved issues (including those referred to in paragraph 7 of the Secretary-General's note (A/AC.198/1993/9) on the enhancement, reactivation and establishment of United Nations information centres). The Department of Public Information will continue to consult with the Polish authorities with a view to resolving all outstanding issues. At this stage, therefore, no additional appropriations would be required.

11. With regard to the request contained in paragraph 2.N above, the Department of Public Information is developing a specific programme of public information on the World Summit for Social Development, the resource requirements for which are reflected in section 24 of the proposed programme budget for the biennium 1994-1995.

12. As regards the request contained in paragraph 2.O above, the United Nations Population Fund, in consultation with the Department of Public Information, has developed a public information programme on the International Conference on Population and Development. A related provision is included in section 24 of the proposed programme budget for the biennium 1994-1995.

Summary

13. Should the General Assembly adopt the draft resolution, no additional appropriations would be required under the programme budget for the biennium 1992-1993.
